

# CCD\*\*\* Digital Control Module

**2 Year  
Warranty**

Works with 5T650BODE Trunk Amp for BODE Operation from Single Pilot

**Works with a Digital or Analog Channel**

First Operational Digital Keyed AGC

Patent Pending

Helical Filters

### Specifications in Housing

Parameter	Test Conditions	Units	Notes	Forward
Modulation	-	-	1	Analog or Digital
Frequency	-	MHz	-	As Ordered
Pilot Levels	-	dB	-	
Analog	At CCD input Pilot 505.25	dBmV	2	18
Digital	Pilot at 507 MHz	dBmV	3	12
Recovery Performance	± 3	dB		
Constant Temperature		dB		± 0.75
-40 F to +140 F		dB		± 1
DC Current Draw (max)	-	mA	-	80

#### Notes:

1. Digital levels are assumed to be 6 dB down from Analog
2. All units are aligned for operation with an Analog channel with a 3 dB pad in the unit..
3. For operation with a digital channel the 3 dB pad must be replaced with a 0 dB pad.

Available now from stock to 4 weeks
